Special Orders for Distilled Spirits

~~(1)~~ Customers may order distilled spirits products or container sizes that the Commission does not carry in the regular product line. ~~The m~~ **Minimum order is a case quantities may apply.** For special orders, the customer pays the wholesale cost, the average handling and freight costs per case and the regular markup. The Commission sets the average handling and freight costs from an annual review of these costs for special orders. ~~Instead of the average handling and freight cost, the Commission may charge a fee that more closely reflects the Commission's actual freight and handling costs on large quantity orders, special decanter orders and Commission purchases of products it wants to test-market.~~

~~(2) The Commission may create a list of frequently ordered special order items. The one case minimum order may not apply to the items the Commission puts on this list.~~
